Experienced Senior Developer with 6 years of expertise in designing and implementing secure, scalable contact center solutions using Amazon Connect and AWS services. Proven track record in automating call flows, integrating PII compliance features, and delivering AI-driven enhancements like call categorization and agent assist. Skilled in Python and AWS serverless architecture. Adept at end-to-end solution development, API-based automation, and infrastructure as code. AWS Certified Solutions Architect and Cloud Practitioner with a strong foundation in cloud computing and contact center technologies.

PROFESSIONAL EXPERIENCE

IBM, BENGALURU (Senior Developer, Mar 2024 – Present)

- **Analyzed** new feature proposals, collaborating with cross-functional teams to assess feasibility and define implementation strategies.
- Fine-tuned **Amazon Lex NLU models** for improved intent recognition and implemented **intent-based call routing** in Amazon Connect.
- Built **Pindrop** integrations using AWS Lambda ,REST APIs and Kinesis Video Stream to enable AI-driven fraud scoring and dynamic, **risk-based routing**.
- Designed **custom solution** to automate call **pause and resume** while receiving **PII data** from customer, enhancing compliance and data protection.
- Reduced IVR wait times by building an Amazon Connect **voice-to-chat** deflection routing mechanism that seamlessly migrated inbound callers to **LivePerson**-powered mobile app chat.
- Delivered a **privacy-first** screen recording tool by integrating PII detection and deletion, reducing risk of data exposure to enhance **data privacy and compliance**.
- Monitored and audited contact center health and Lambda executions using Amazon CloudWatch, proactively **troubleshooting** routing and integration issues.
- Participated in hands-on workshops to **design and build conversational AI bots using Amazon Bedrock and Amazon Lex**.

WIPRO, BENGALURU (Senior Amazon Connect Developer, July 2019 – Mar 2024)

- Designed and delivered multiple end-to-end contact center solutions using **Amazon Connect**.
- Implemented key **features** including Voicemail, Post-Call Survey, Callbacks, and Custom CCPs to enhance user and agent experience.
- Built and tested Contact Flows, Routing Profiles, Queues, Quick Connects, and Security Profiles as part of Amazon Connect configuration.
- Developed **Proof of Concepts** (PoCs) to showcase innovative solutions and drive client adoption.
- Worked with **Salesforce and ServiceNow** APIs for **real-time** data exchange and automated case/interaction creation.
- Identified and resolved complex issues across AWS, Amazon Connect, and Contact Flow configurations.
- Built and deployed bots using Amazon Connect and Amazon Lex.
- Conducted **training** sessions for contact center agents and managers on Amazon Connect tools and best practices.
- Worked extensively with Connect APIs, Contact Lens, and **Connect Streams** for advanced functionality.
- Created detailed **Visio flow** diagrams based on solution requirements and process mapping.
- Proficient in **Python** for developing and debugging **AWS Lambda** functions to support serverless workflows.
- Built and deployed **serverless** web applications using AWS services like Lambda, DynamoDB, API Gateway, Kinesis Data Stream, and CloudFront.

EDUCATION

Birla Institute of Technology and Science, Pilani.

M. Tech in Computing Systems and Infrastructure, 2019 - 2023

Amrita Vishwa Vidyapeetham, Mysuru, Karnataka.

Bachelor of Computer Application, 2016 – 2019

ADDITIONAL SKILLS

- **AWS Services:** Amazon Connect, Lex, Lambda, API Gateway, S3, DynamoDB, Cloudfront, Cloudformation, Cognito, Polly, Kinesis Data Stream, Firehose, SES, IAM, CLI , AWS SDKs etc.
- **Programming Languages:** Python, Java Script , Node.js
- **Web Technology:** HTML, CSS, Bootstrap
- **DevOps & Tools:** Git, Buildkite, Harness, Jira, Confluence, VS Code, Postman.

CERTIFICATIONS

- AWS Certified Solutions Architect
- Amazon Connect Communications Specialist
- AWS Generative AI Essentials
- AWS Certified Cloud Practitioner
